

# Submission on Resource Consent

Meridian Energy, Quartz Hill and Terawhiti Station

Proposal: Project West Wind WCC SRN:131428 GWRC Ref: WGN060001

**Name of submitter:** Windy City Offroaders Inc and New Zealand Four Wheel Drive Association.

**Address of submitter:** C/o Ken McAdam, 390 Flightys Road, Pauatahanui, RD1 Porirua

Phone: 0276744811

Email: [Ken.McAdam@xtra.co.nz](mailto:Ken.McAdam@xtra.co.nz)

**The aspects of the submission I support** is the need to produce electricity in sustainable forms.

**The reason for my submission is** concerns over existing use of some of the land by motorised recreation groups and the impact the wind farm could have on this. It would appear that the areas that can be considered by Meridian for wind farms are also the most likely sites for motorised recreation. As there is very little room for motorised recreation within the Wellington area I think it is important that we be able to protect areas while maintaining the ability to work together to obtain an ongoing working relationship.

**The decision I would like Council to make** would be to approve the application with the appropriate conditions of consent put in place to protect existing use and the ability to carry on that use.

We wish to speak in support of the submission

Kind Regards

Ken McAdam
